

SYSTEM ADMINISTRATOR (m/w) at EDU

About us

EDU is a brand of Digital Education Holdings Ltd. (DEH), a private institution of higher education with a vision to substantially increase the quality and accessibility of education.

In line with the United Nation's Fourth Sustainable Development Goal, EDU focuses on social impact for higher education by boosting societal participation, lowering barriers to formal education and addressing the capacity constraints to higher education in developing countries.

We are a young company with a team of passionate founders and leadership with broad experience across the fields of education, technology and international relations. With a rich partner ecosystem, we are building degree programmes that rely on European traditions, instilling in our graduates a strong sense of responsibility.

If you share our commitment in shaping the future of education, we invite you to join us on this journey.

Who we're looking for

- You have a proven experience as a System Administrator, Network Administrator or similar role for various operating systems, platforms and environments
- You have a proficiency with at least one programming language (Python, Go, Bash, PowerShell)
- You have experience with the configuration management (Ansible)
- You have experience in database operations (SQL Server, Oracle, Postgres and/or MySQL)
- Working experience with GIT and CI tools (Jenkins/TeamCity)

What will you do

- Install and configure cloud software and IaaS services
- Monitor performance and maintain systems according to requirements
- Troubleshoot issues and outages
- Ensure security through access controls, backups and firewalls
- Upgrade systems with new releases and models
- Develop expertise to train staff on new technologies
- Build an internal information portal with technical documentation, manuals and IT policies

What we offer

- Being a vital part of building up an innovative social business
- Personalized learning plan in line with your goals, with weekly and monthly check-ins and feedback
- Opportunity to do meaningful work from day one, and gather first-hand experience and insights across departments
- Work closely with experienced professionals at the top of their industries
