

## Medical Curriculum Designer

Full Time or Part Time - (m/w) at EDU

EDU is a brand of Digital Education Holdings Ltd. (DEH), a private institution of higher education with a vision to substantially increase the quality and accessibility of education.

In line with the United Nation's Fourth Sustainable Development Goal, EDU focuses on social impact for higher education by boosting societal participation, lowering barriers to formal education and addressing the capacity constraints to higher education in developing countries.

We are a young company with a team of passionate founders and leadership with broad experience across the fields of education, technology and international relations. With a rich partner ecosystem, we are building degree programmes that rely on European traditions, instilling in our graduates a strong sense of responsibility.

If you share our commitment in shaping the future of education, we invite you to join us on this journey by joining our team as a **Medical Curriculum Designer!**

### Who we're looking for

Our team is committed to making an impact in medical education and our students' lives through EDU's innovative approach, while maintaining a strong to excellent standards, personalised learning, and world-class resources. In line with this vision, we are looking for medical professionals to join our team and work with us on an innovative curriculum.

A successful candidate in this role brings the following experiences and characteristics to the table:

- Graduate of medical school or a related field;
- Work experience as a medical clinician, or other related field (rescue service, nursing, etc.);
- Interest in medical education and eagerness towards exploring novel pedagogic approaches;
- English proficiency (written and spoken);
- Excellent social competencies, friendliness and ability to work within a team – you will be collaborating with an inspiring team from different backgrounds and across locations;
- Digital competency and excitement towards exploring innovative formats for engaging students in a digital world;
- Reliability and commitment – shaping the curriculum and educating the next generation of medical practitioners is a big responsibility!
- Punctuality and excellent organisational skills.

## What you will do

What skills, knowledge and capabilities should the next generation of medical professionals possess? At EDU, excelling means not just acquiring factual knowledge, but a commitment to evidence-based medicine, a stronger focus on communication skills, emphasized critical thinking, encouraging creativity, fostering interdisciplinary problem-solving and emphatic leadership. These skills that enable lifelong learning and professional development are becoming increasingly relevant for success.

The Medical Curriculum Designers are at the heart of EDU's medical programmes as the team responsible for setting a course in line with our vision. This role works directly with the Chief Medical Officer to continuously develop and refine the medical curriculum for our medical programmes.

Responsibilities include:

- Continuously review, revise and develop the medical curriculum;
- Develop learning objectives based on Bloom's taxonomy;
- Curate learning content and support the development of various learning materials in relation to the learning objectives;
- Support in the development of assessments and lesson plans;
- Communicate the curriculum vision to other areas of the company, including the tutor and mentor team, operations, marketing, product and IT.

## What we offer

- Learn by working directly with the Chief Medical Officer and engage with in a dynamic team with inspiring colleagues;
- Opportunity to do impactful work in a field that matters;
- Flexible working times, full-time or part-time;
- Work from our offices in Kalkara, Berlin or Bratislava, or remotely from home;
- Excellent pay!

**Start: ASAP**

**Sounds like you? Then we're looking forward to receiving your application which you can send us to [jobs@edu.edu.mt](mailto:jobs@edu.edu.mt)**
